

# CHRONOLOGICAL LISTING OF U.S. MILERS

## WHO HAVE BROKEN 4:00 IN THE MILE

(as of March 16, 2011)

The mark listed for each athlete is how fast he ran in his first-ever sub-4:00 mile. The list is for actual mile races, not any conversions from the 1500 (where a 3:42.22 is equivalent to 3:59.99) or the 1600 (where 3:58.61 is required). Dual citizens are not included unless they represented the U.S. internationally. 2010 was the year with the most new members, 20.

\*=athlete never ran any faster in his career (this is more than half the total); i=mark made indoors.

Amendments are most welcome.
